HIGH DEPTH
ELEVATION TILES

products unlike natural stones, are light weight and have temperature reducing property, which makes it unique and easy to install on height, and are free from algae and fungus, makes it virtually maintenance free. Its appearance and color fastness lasts almost as your architectural project.

emerged through passion to make eco friendly engineered stone products without hurting the nature, almost all raw materials used are from recycled products, hence making the product eco friendly.

have not been created just to satisfy the need for style and design, but also meet all performance tests and have shown excellent outdoor and indoor durability, making them suitable for any weather & climate conditions.
